

HARVARD UNIVERSITY

PMC has a developing relationship with Harvard that allows students to take [HBS Online courses](#), earn certificates, and even gain guaranteed admission into master's programs in Finance and Management.

- Students may start with shorter courses, such as:
 - [Entrepreneurship Essentials](#) (4 weeks)
 - [Negotiation Mastery](#) (8 weeks)
- Next, they may begin the [Credential of Readiness \(CORe\) Program](#), which consists of three courses:
 - [Business Analytics](#)
 - [Economics for Managers](#)
 - [Financial Accounting](#).
- Finally, students completing one course at the Harvard Extension School obtain *guaranteed* admission into master's degree programs in [Management](#) or [Finance](#) at the Harvard Extension School.

The master's programs are "blended," which means online study is balanced with a campus experience. Two to four courses must be taken on the Harvard campus.

It's a convenient way to earn a Harvard master's degree—mostly from your home!

These courses have separate fees, but scholarships may be available. If interested, please contact Success Coach Cyrus Segwa Konstantinakos (ckonstantinakos@pmc.edu).
